DB12 IN-ROW AUTOMATIC GRASS CUTTER DISK

DB12

IN-ROW AUTOMATIC GRASS CUTTER DISK

The in-row automatic grass cutter disk BFM can work with confidence thanks to its automatic and dual controls positioned on the tractor. The machine is totally autonomous and can be applied to any medium. The in-row automatic grass cutter disk carries a cutting diameter of 90 cm through its wires, and also brush the ground with his hard leveling. The mower is equipped with a wire container with a capacity of up to 100 meters, allowing a long working time. The small size of the in-row automatic grass cutter disk BFM and its mechanical adjustments make it suitable for all types of terrain. Is ideal for cleaning and cutting grass in vineyards and orchards between plant and plant and is very useful for cutting grass along the roadway, even when they are strong steep.
